Story

--- "Sherlock Holmes – The Game Is Afoot!"

Sherlock Holmes is an eternal hero created by British novelist Sir Arthur Conan Doyle in the late 19th century. Doyle portrays Sherlock Holmes as an independent detective who skillfully employs his extraordinary acumen, powers of observation, and masterful disguises. Over the decades, the stories have had a lasting appeal among readers of all ages, and today the world of Sherlock Holmes captivates audiences across the globe through all forms of media.

Sherlock, the singular detective. Professor James Moriarty, his arch-nemesis. And Irene Adler, the only woman who could move Sherlock's heart.

He who fights crime. He who lives for crime. And she who bears its burden.

A triangular inferno depicts these three characters who are inseparably bound through crime.

What is a person? What is crime? And what is love?

Set in London, a city bathed in mist and smoke, this action-packed adventure tells the story of a detective who has solved many a challenging case.

This performance will be the Grand Theater debut for new top pair Suzuho Makaze and Hana Jun.
